Qamar Siam

MERN & SHOPIFY DEVELOPER

Faisalabad, Pakistan
qamarsiam7376@gmail.com
github.com/qamarsiam
linkedin.com/in/qamar-siam-

Web developer working in the **MERN stack** and **custom Shopify themes**. I write the Liquid, the API and the interface — and I care how each one feels on a phone. I build storefronts and web apps around one idea: premium feel should not cost performance.

SKILLS

Shopify

- Liquid templating
- Online Store 2.0
- Sections & blocks
- Metafields
- Theme CLI

MERN Stack

- MongoDB
- Express
- React
- Node.js
- REST APIs

Front End

- Semantic HTML5
- CSS Grid / Flexbox
- Vanilla JavaScript (ES6+)
- Responsive layout
- Accessibility

EXPERIENCE

Shopify Theme Developer

2024 — Present

Freelance & client work · Remote

- Built custom Shopify themes in Liquid for retail clients, from section architecture to cart behaviour.
- Designed merchant-friendly themes where sections and blocks can be rearranged without breaking layout.
- Shipped mobile-first themes, designing at 320px and scaling up — because most shoppers are on phones.
- Reduced load times by cutting third-party scripts and favouring native CSS and lazy-loaded assets.

MERN Stack Developer

2024 — Present

Independent projects · Remote

- Built full-stack e-commerce apps with MongoDB, Express, React and Node — catalogue, cart and orders end to end.
- Wrote REST APIs with authentication, order flows and inventory logic, tested against the front-end UI.
- Owned the whole stack: schema design, API endpoints, React components, deployment.

SELECTED PROJECTS

Lumère

Shopify · Liquid

Client storefront

- Custom Shopify theme with a refined product page, section-based architecture and clean mobile cart.
- Fully editable in the theme editor — merchant can rearrange sections without touching code.

Decor & Waqat

Shopify · Liquid

Two custom Shopify themes

- Decor: catalogue-led layout built for browsing many products at once.
- Waqat: product-focused, spec-heavy pages tuned for a watch storefront.

Mirchi

MERN

E-commerce app for a spice shop

- Catalogue, cart and orders built end to end on a React front end with a Node API.
- MongoDB for products and orders, Express for routing, JWT for auth.

Zul-e-Aas & Slice-up

Shopify + MERN

Theme & second MERN storefront

- Zul-e-Aas: further custom Shopify theme work.
- Slice-up: second MERN e-commerce build with a different catalogue and checkout logic.

EDUCATION & CERTIFICATIONS

MERN Stack Certification

2024

NAVTTC — National Vocational & Technical Training Commission

Bachelor's Degree

2025

University of Agriculture, Faisalabad
